Northwestern University Traffic Institute & Harley-Davidson Motor Company® presents a

MOTORCYCLE NATIONAL ACADEMY

Many people assume that an officer is qualified for police motorcycle duty simply on the strength of prior experience operating civilian motorcycles. Not so! The high load factor of police motorcycles, along with the unusual distribution of the load, results in unique handling problems. This, plus the high speeds and/or maneuverability required of police motorcycles, creates the need for higher-level skills than civilian riders are equipped to master without specialized training.

POLICE MOTORCYCLE INSTRUCTOR TRAINING & CERTIFICATION

This 120 hour course will not only cover methods of instruction, but also provide real-life experience in teaching proper police motorcycle operation. We have overlapped our Police Motorcycle Instructor training with our Operator Training to give further instructors actual police motorcycle student operators to work with.

Upon successfully completing Police Motorcycle Instructor Training, the new instructors should be able to teach proper police motorcycle patrol procedures to other members of their organization. The course will cover: • Principles of Learning • Methods of Instruction • Preparing a Lesson Plan • Site Selection • Course Layout • Practice Teaching (Field Exercise) • On-Street Riding Techniques • Law Enforcement Techniques.

Please note: As a prerequisite, Instructor candidates must have previously been trained as a Police Motorcycle Operator, either in our basic school or an equivalent school.

POLICE MOTORCYCLE OPERATOR TRAINING & CERTIFICATION

This intensive 80 hour program will develop the coordination, skill and confidence necessary for the student to operate a police motorcycle safely and efficiently. It will cover: • Machine Nomenclature, • Slow Maneuvering, • Control, • Braking, • Curve Negotiation, • Motorcycle Maintenance, • Defensive Driving Techniques, • Law Enforcement Techniques, • On-The-Street Riding.

Through this program, the student rider will be evaluated continually. Upon successful completion of the course, students will have demonstrated their ability to use all the defensive riding techniques and manual skills they have learned in actual street riding situations, and will be fully prepared for on-the-job training in their agency.

WE CAN BRING TRAINING TO YOUR AGENCY

The motorcycle course can be presented at your location. Motorcycles will be provided by Harley-Davidson at no extra cost. Instruction will be provided by Traffic Institute staff. Our instructors and fleet of police motorcycles are ready to serve you.

If your agency would like to act as host, or you would like more information, please contact:

The Traffic Institute - 1 (800) 323-4011, or
The Chief Instructor, Police Motorcycle Training at: (414) 343-8234
Prior to enrollment each student will be required to sign a release of liability for
Northwestern University and Harley-Davidson Motor Company.

Credentials that inspire confidence and trust.

In the days or weeks leading up to your surgery, your friends and family members will give you many words of encouragement. However, you want much more than that. You want a level of confidence that comes with having surgeons with the training and experience you can trust.

Our team of surgical experts has the respected medical credentials and track record you need. We specialize in minimally invasive, or laparoscopic, surgery whenever possible. You'll experience less discomfort, less chance of complications, less recovery time and a faster return to your active lifestyle. What's more, this technique offers an excellent cosmetic result, without compromising the success of the procedure.

Our surgeons are all active members of some of the most respected organizations in their field, including the American College of Surgeons, the Society of Laparoendoscopic Surgeons and the American College of Osteopathic Surgeons, to name just a few. For us, staying up-to-date with leading-edge techniques is a lifetime commitment.
